BUILDER, ARCHITECT

AND CONTRACTOR.

RENO, NEVADA.

Plans for buildings and estimates of construction. Contracts taken for any size or style building. Bids opened at the University. Orders left at Sunderland's shoe store will receive prompt attention.

Keeping Up His Reputation.
Wife—I think it's too bad you should throw away money on such expensive umbrellas. You are always losing them. Why don't you get cheap ones?
Husband—Huh! That's all you women know about business. Do you suppose I want to advertise the fact that I have a poor memory?—New York Weekly

Tempting Providence.
"Mary Jane," said the Dakota farmer to his spouse, "it seems like flyin in the face of Providence to name the boy Elijah. It sounds too much like the old feller in the Bible that was carried away by a cyclone. I don't think it's a proper name at all for this country."—Indiana Journal.

Government "Deadheads."
In some of the departments at Washington there are so many clerks that the useless ones stand in the way of those who are disposed to work. The working clerks are a splendid force of experienced and capable men, but the "dead-heads" are found everywhere.—Pittsburg Post

It is a common thing for actors and actresses on the road to send money orders to themselves at coming places on their route lists, which is often the only care for the future many of them will take.

Catullus Lutatius killed himself in a peculiarly painful manner by swallowing coals of fire and supplementing them with a piece of red-hot iron.

Art, so far as it has the ability, follows nature as a pupil imitates his master, so that art must be, as it were, a descendant of God.—Dante

Ancient Superstitions.
Omens and superstitions have their origin in the belief suggested to primitive man that the elements and everything pertaining to creation had souls and intelligence. This belief is found among the ancient Aryans, the Romans, the Celts, the Teutons, the Arabians, the Chinese, the American Indians and, in fact, in every nation. That human nature is the same the world over and at all times is shown by the analogy existing between early mythology and sources from which the superstitions of the present day are derived.—New York Telegram

Bob's Ambition.
"I'm going to be a postman when I grow up," said Bob, who had been chided by his father for whistling. "Then I can go around ringing front doorbells and whistling all I please."—Harper's Bazar

Children Cry for Pitcher's

HALE METHOD OF PAINLESS FILLING.

NEW DEPARTURE IN DENTISTRY!

DR. PORTER HAS RETURNED for the purpose of advertising the

"Hale Method of Painless Filling."

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

OFFICE IN STEELE BUILDING, COMMERCIAL ROW, RENO.

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter—DEAR SIR:—It affords me pleasure to say that the Hale method of painless filling opens a new era in the dental world. After having several very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond competition. PATRICK HENRY.

Dr. Porter—DEAR SIR:—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I want to one of Dr. Leek's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure the torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as if you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you claim for it. CHARLES HOPE.

Dr. Porter—DEAR SIR:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations. MRS. H. PRENTISS.

Dr. Porter—DEAR SIR:—It gives me great pleasure to state that I am thoroughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method. MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR:—After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method. Respectfully yours, HENRY J. NEYLAND.

Dr. Porter—DEAR SIR:—I believe that the Hale Painless Method of filling is destined to lead the world in its especial field of usefulness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensitive teeth filled to me. JOHN SHERITT.

BOCK BEER

BOTTLED BY HAND.

Years ago the government made an appropriation for a survey of the boundary line of California and Nevada from lake Tahoe south to the Colorado river. A. W. Von Schmidt, an engineer of note, was given charge of the work and established the line, the initial point being in lake Tahoe, a part of which is in Nevada. Of late years California has been asserting that a part of the territory given to Nevada by the Von Schmidt survey rightfully belonged to California. The press and the politicians harped on the subject to such an extent that congress recently made an appropriation to re-survey the boundary, and Professor Davidson of the coast survey has been designated to superintend the work.

The north end of the line between Nevada and California intersects the 120th meridian in lake Tahoe on the 29th parallel, from which point north to Oregon the 120th meridian forms the boundary between Nevada and California. From the point of intersection south the boundary runs diagonally to the Needles on the Colorado river. This is the line which is to be surveyed by Professor Davidson.

Californians assume that the new survey will move the initial point, that is the intersection of the 80th parallel and 120th meridian, from its present position near the center of lake Tahoe to the eastern shore of that lake and will give California a long slice of territory, now claimed by Nevada from lake Tahoe south to Needles. This would place a part of what is now Douglas, Esmeralda, Nye and Lincoln counties, Nevada, in California.

It is not probable that the expectations of the Californians will be realized, as Von Schmidt was a competent surveyor and doubtless as capable of determining the true boundary line of California and Nevada as those who will make the new survey.

POWDERLY ON RICKS.

Grand Master Powderly in an address at Philadelphia regarding the recent decision of Judge Ricks and Judge Taft in the cases of the striking engineers on the Lake Shore and Ann Arbor railroads, says that a crisis has come to organized labor. The decision of Judge Ricks he pronounces the most revolutionary as it upsets all precedent. If sustained by the supreme court it will give additional momentum to the reform movement in politics. He charges that Judge Ricks of Toledo rides free over the Lake Shore railroad and was therefore disqualified from trying a case in which the road was interested. This should be sufficient to secure his impeachment and removal from the bench.

If this charge is well founded Judge Ricks should not have been permitted to sit in judgment in a case in which the Lake Shore railroad was interested. Judges should, and generally do, receive sufficient salary to enable them to pay their fare over railroads and when they do travel free over roads they should not have authority to decide cases in which the roads are parties. If Powderly's assertions are true Judge Ricks should be removed from the bench and his decision set aside, and if they are not Powderly should be prosecuted for defamation of character.

An election was held this week in the seventh congressional district of Massachusetts to fill the vacancy created by the election of Henry Cabot Lodge to the United States senate. Unofficial returns from all the towns in the district indicate the election of William Everett, Democrat, over W. E. Barrett, Republican, by a plurality of 14. Lodge's district has heretofore been Republican by about 3,000 plurality, and this change would indicate that the third party polled a very large vote or the people no longer favor force bills.

A distinguished Democratic senator is quoted as saying that there is not going to be any trouble between the president and the senate. The situation, he says, reminds him of his own domestic relations. Said he: "There never was a happier family than ours. My wife does just as she wants and I do just as she wants, also." The story is a good one, but what the people want to know is whether the president or the senate is the wife?

Mexico has a new law governing railroads. By it all tariffs must be approved by the Government, the payment of rebates is prevented, and, generally, war on any form of discrimination is waged, prohibiting at the same time ticket-scalping practices, the operation of contract or revenue pools and giving the Government the right to say what rates shall govern.

COLONEL JOHN F. IRISH was one of the few men in the transmississippi congress at Ogden whose vote was recorded against the free coinage of silver resolution. The Colonel, like many others, wants office much worse than he does free coinage.

The National Democratic platform "holds to the use of both gold and silver." The Denver News says somebody should call the attention of the administration to the "gold and silver" clause in the platform.

A Scotch newspaper published births, marriages and deaths under the title, "Yella, Bells and Knells."

STEWART THE CHIEF.

He Delivers The Grandest Speech Ever Heard in Ogden.

GRAND COLUMBIAN BALL.

A Magnificent Spectacle Witnessed in New York Harbor.

TRANSMISSISSIPPI CONGRESS.

Senator Stewart Electrifies Ogden on the Silver Question—The Free Coinage Resolution Passes the Congress.

Special to the JOURNAL.]

OGDEN, Utah, April 27.—Last evening was the battle of the giants. The great question of silver coinage was debated between Col. John P. Irish of California on the negative and Senator W. M. Stewart, Nevada's venerable silver patriarch, for the affirmative. Col. Irish spoke for an hour, and was followed by Nevada's silver champion.

Senator Stewart opened his speech at 9 o'clock and closed a few minutes after 11 p. m. He reviewed the history of money from the earliest day and declared that value was governed by limitation of quantity and desire to have. Thence he traced the history of money, gold and silver, to 1873. He reviewed the history of the demonetization and how it was done. He called it a crime and a fraud on the people and gotten through with a trick, and then explained the modus operandi. On the close a storm of applause greeted him. It was a grand and noble speech, the like of which has never been heard in Ogden.

To-day the congress voted on the question, the result of the vote being as follows. Ayes—Nevada 10, Arkansas 10, Colorado 30, California 21, Idaho 12, Montana 18, Kansas 18, Nebraska 24, North Dakota 10, Washington 12, Oregon 13, New Mexico 10, Texas 12, Utah 20, Wyoming 18. Nays—California 4, Nebraska 6, Missouri 3, Texas 7, Wyoming 6, Washington 4. Total—ayes, 238½, nays, 30½.

Following this vote Spence of the committee on resolutions reported a resolution asking for the admittance of the territories in the Union. There was no objection to the Arizona resolution, but the Utah resolution aroused a big fight, in which the Liberals of this territory opened the ball opposition by Judge Barker, mayor of Salt Lake, who opposed the introduction in this congress for the reason that in Utah there are differences of opinion on the proposition to give statehood to the territory, and he thought that the people should be allowed to settle the matter between themselves.

Colonel Irish made one of his smooth talks favoring the resolution. The argument was full of sophistry and misstatements, though a strong plea for statehood for Nevada.

Frank J. Cannon, editor of the Ogden Standard, son of George Q. Cannon, was called for, and in responding made an eloquent and earnest speech defending his people and speaking in favor of the resolution.

Recess to 2 p. m.

At the afternoon session the fight went merrily on, being for the visiting delegates a circus which was not down on the program. Judge Goodwin, the famous editor of the Tribune, in Salt Lake, addressed the congress in opposition to the resolution. Dave Evans of this city scored Goodwin and the Liberals unmercifully. Judge Heybourne of Idaho took the ground that the question of Utah's admission should not have come before this congress. Franklin D. Richards, the distinguished Mormon lawyer, made an impassioned speech in defense of the resolution and his people.

The congress has accepted the invitation of Salt Lake to visit that city in a body.

After a brief discussion over hydraulic mining in California, the congress passed resolutions recommending appropriations for harbor improvements on the Pacific and Gulf coasts.

The admission of New Mexico and Arizona as states was not opposed, but when Utah was taken up a bitter fight came on, participated in by representatives of the Liberal or Gentile party, who were opposed to the measure, and a number favoring, both resident and visiting delegates. The Utah delegation was unable to decide as to casting their vote and did not vote at all.

Major Baskin of Salt Lake city, Judge C. C. Goodwin of the Salt Lake Tribune, Judge W. B. Feyburn of Idaho and Governor A. L. Thomas all spoke against the resolution; while Colonel Jo in P. Irish of California, David E. Evans of Ogden, F. D. Richards of Salt Lake, Frank J. Cannon of the Ogden Standard, and T. M. Patterson of the Denver News for it.

The scene was intensely dramatic, and the congress sat almost spell-bound during the eloquence poured forth on the Utah question. While denouncing polygamy the highest tributes were paid to the Mormon people for their integrity, honesty, industry and morality.

The resolution favoring the admission of Utah as a state late in the afternoon was carried by a vote of 163 to 71. The discussion of other resolutions, especially of arid lands and irrigation, will be taken up this evening.

THE COLUMBIAN BALL.

A Gorgeous Affair—Magnificent Decorations.

Special to the JOURNAL.]

New York, April 27.—The Columbian ball to-night at Madison Square garden, in respect to the magnificent decoration and arrangement and the large number of world famous guests present was the most splendid ever given in the new world.

Besides the president and advisors, the chief legislative body of the United States and the Spanish grandees, lineal descendants of Christopher Columbus, there were diplomatic corps, admirals and subordinate officers of every great naval power in the world, governors of neighboring states and famous army officers. It was, in fact, a gathering of celebrities so gloriously arrayed that the oldest and most traveled guest acknowledged that seldom or never before had he seen a parallel to the gorgeous picture presented.

The decorations were rich and elaborate. The main entrance was draped with pure white amilax, asparagus sprays and cut flowers. Rare exotics were profusely distributed and myriad tiny electric lights shown from the mass of flowers and verdure. In the centre of the garden thousands of sprays of lillies of the valley formed an arch. Across the rear of the amphitheatre in huge letters of light were the words "A New World Welcome."

A magnificent model of the capitol at Washington, created out of white flowers, and illuminated with electric lights, rested upon the stage of the assembly room. The entire roof of the garden was hung with a canopy of white and gold, dependent from which were hundreds of clustering flags of all nations.

The large box was occupied by Mayor Gilroy, and President Cleveland's box, which was magnificently decorated, was on the right of the mayor's. The boxes occupied by the Duke Weegu and party was on the left of the mayor's. The other boxes on the first tier were occupied by members of the United States supreme court, the diplomatic corps and by Governor Flower and staff. The arena boxes were occupied by the admirals of foreign and American fleets and attending officers. Major General Schofield, commanding the army, and Major General O. O. Howard with suites also occupied boxes in this tier. Two bands furnished the music. The doors of the garden were thrown open at 9 o'clock and almost immediately afterwards the guests began to arrive. The president, having other engagements during the evening did not arrive with his party until sometime after the ball began, at 10 o'clock. The program of dances was a very simple one.

Weather Forecast.
SAN FRANCISCO, April 27.—The forecast for Nevada is fair weather and warmer.
